

'MOSAIC Family'

A quality Educators platform that involves parents and family as meaningful partners in the child's early learning and development

www.mosaicelc.ie

Welcome to MOSAIC!

This early childhood service uses a professional educational system called Mosaic which is designed to support and enhance children's learning and development in the early childhood setting.

Educators working with your child use Mosaic to regularly observe your child during play, tune in to his/her interests and abilities and plan further activities to strengthen learning and development. This platform is suitable for babies, toddlers and pre-school children and adapts to their individual abilities and stage of development.

A unique **Leabhar Scéalta (Storybook)** of your child's time in the early childhood setting will be compiled through **Mosaic**. This includes photographs, audio recordings and samples of work; where an informative picture of your child will build up over time.

Educators will regularly compile a variety of updates called '**Learning Stories**' for your child's unique Storybook and send them directly to your phone! **You will be able to save these documents, share them with other family members and use them to celebrate your child's achievements as they happen at home!**

Why do we observe children in this way? We do this because it is a core component of high quality practice in early childhood care and education. Early childhood services are inspected by both Tusla and the Department of Education. This is to ensure that we are providing an appropriate early learning and care programme for the children in our service. Part of this is how we observe children's individual stage of development, plan for their unique needs and interests, assess their progress and share it with you! We do all this by framing our curriculum programme around Aistear – which is the Irish curriculum framework for children 0-6 years old.

'It takes a village to raise a child' ...

Involving the wider family in celebrating children's achievements

By using Mosaic, we value and recognise the importance of working as a team with you - parents and family for the benefits of your child.

'**MOSAIC Family**' is a separate App that links to '**Mosaic Educator**' so that approved family members can view and keep up to date with all your child's learning and development achievements as they happen. As updates will be received in '**real time**', this enables parents and family

to reinforce learning and celebrate achievements to build confidence, self-esteem and nurture further learning.

In addition, if you have a baby under 3 years old in crèche, you will receive a **Daily Care Log** from us to inform you of what your child ate, drank, sleep times, nappy changes, mood etc. so that you are fully informed of your child's physical and emotional care each day.

How can I access MOSAIC Family?

Once your child starts the early childhood service, the service Manager will make a Storybook for your child on the Mosaic platform. This Storybook is for your child only and is accessible by the Manager and Educators working directly with your child.

You will be able to download the 'Mosaic Family' App to your phone from the [Google Play App Store](#)

by searching for MOSAIC Family. **3 different package options will be available to you as follows:**

1. **Basic** – one user to view multiple children in from the one family €12.99 for one year
2. **Family** - 3 family members to view multiple children from the one family €19.99 for one year
3. **Family Pro** – up to 8 members to view multiple children from the one family €29.99 for one year

What can I expect to receive when I sign up?

New learning opportunities for children connecting with technology by taking photographs and recording videos to help build their own story of learning.

Children are able to take work home in 'real time' rather than retaining work in the setting for a scrapbook

Effective Partnership with Parents

Parents updates and communication in '**real time**' through notifications to their mobile device. This is invaluable for both the parent and child to discuss the child's day in the evening and enables parents to be more actively involved in the child's daily experiences.

Communications
- messages from the early childhood service about events, reminders, closures etc.

Learning Stories - short stories about your child's achievements

'Snapshot Reviews' - progress updates or target setting for your child

Videos and Pictures - a varied gallery of photos and videos of your child in the early childhood service

Daily Care Log
- a log of food, sleep, nappies and mood for children 0-3 years

Transition Reports - an overview of achievement for when your child is moving to a new room in the service or going to school

Distinctive profiles of children where you can really 'see' the uniqueness of each child, their personality, interests and strengths.

Environmentally friendly administration and documentation **that can be saved and stored.**

... and much more!

Some important things to note:

- ✓ Regardless of how many children you have attending the early childhood service, **the price is the same to view the Storybooks of multiple children.**
- ✓ The email you used to register your child with our service will represent the **'Primary Authorised User'** email that will control which other family members can access your child's Storybook. Users can be deleted/changed by the Primary Authorised User at any time.
- ✓ Your subscription will last one year however **you can keep your child's Storybook forever.**
- ✓ **A full gallery of your child's photographs and videos** taken in the service will be included in each child's Storybook. You can print photographs as desired.
- ✓ If your child attends the service for a number of years, you will have the opportunity to access to a separate Storybook for each year – **showing progression through the different stages.**
- ✓ There is a communications platform on Mosaic Family where you will be able to **receive message notifications** about events or changes to the normal schedule. You will also be able to **send a message** to the early childhood service through your app.
- ✓ 'MOSAIC Family' is compatible with **both android or an iOS mobile devices.**
- ✓ Mosaic is an encrypted platform where access to children's photographs and audio is protected and controlled by passwords. Both parents and the service will abide by a Data Sharing Agreement and permission boundaries.
- ✓ Mosaic Apps enable **paperless solutions** for education administration –**Help us to GO GREEN, Go MOSAIC!**
